Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Applicant's election without traverse of 1/12/07 is acknowledged.

The examiner regrets the oversight of not including claim(s) 23 with Group(s) III.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 12-15 & 23-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With regard to claim(s) 12, "upper rim" & "connection" lack(s) antecedent basis.

With regard to claim(s) 24, "upper rim", line(s) 6, & "connection" lack(s) antecedent basis.

With regard to claim(s) 26, the specification appears to indicate that the gasket is 13 & the lug or ring 13'. The independent claim(s) recites a gasket & the dependent claim(s) recites a lug or ring. The scope of claim(s) 26 is therefore unclear.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 12-15 & 24-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Walters (4,413,758), substantially as applied on 6/30/06.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 12-15 & 23-28 are rejected under 35 U.S.C. 103(a) as being unpatentable over Walters (4,413,758).

With regard to claim(s) 23, Walters (4,413,758) is directed to a material other than coal or fly ash.

It would have been obvious to modify Walters (4,413,758) to substitute a use of coal or fly ash in order to increase system applicability.

8. Claims 12-14 & 23-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Anderson (3,254,766).

With regard to claim(s) 12 & 24, Anderson (3,254,766) is/are silent on a gasket.

It would have been obvious to modify Anderson (3,254,766) to provide a gasket in order to increase efficiency.

Conclusion

9. Regarding the applicant's remarks, the examiner offers the following response.

With regard to page 10, first paragraph, Walters (4,413,758) disclose(s) a gasket/ring 31 & 32. The examiner is not referring to the hole but flat material sandwiched between the bottom & the discharge device.

With regard to page 11, fifth paragraph, Anderson (3,254,766) disclose(s) a ring as defined by the applicant. It may be the top of a screen but as seen in Figure(s) 2, forms a ring.

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph A. Dillon, Jr. whose telephone number is (571)272-6913. The examiner can normally be reached on 8-5:30, every other Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gene Crawford can be reached on (571)272-6911. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
